

NAZIS NOT WELCOME IN ABERDEEN!

Oppose the National Front & BNP racist lies!

The fascist thugs of the 'National Front' are getting active in Aberdeen, recently attempting to leaflet a number of local schools with their racist propaganda.

The neo-Nazis are trying to stir up hatred towards Muslims and Asian people – blaming them for unemployment and poor housing. They want to divide our communities – but beyond their racist scapegoating, the NF and their chums in the BNP have no answers.

With the Tory/Lib Dem coalition preparing to launch savage attacks on all our living standards – be it child benefit, pensions, jobs or public services – we need unity to face off their cuts and 'austerity' more than ever. We shouldn't be fooled by the racists.

Scottish Socialist Party

The SSP fights for an independent socialist Scotland, free of poverty & racism. We fight for a Scotland where everyone earns a decent wage, and where the rich pay their fair share of tax. We fight to bring our troops home from the aimless bloodshed in Afghanistan. Above all, we want to create a society where people and planet come before profit and greed.
